

ROAMEO is an impressive 7' total height, and takes industry leading AI analytics, video surveillance capabilities, and interactive communications and puts them on the move, at speeds of up to 12 mph.

As a complement to man guarding situations ROAMEO can interact with people along its patrol route, providing necessary calls for help, panic buttons, security alerts, etc.... plus an unlimited number of concierge services including local information, weather, directions. And profit generating advertising messaging.

A FULLY FUNCTIONAL, MOBILE ROBOT - The guarding and security industries have waited long enough for a robot that it can count on. ROAMEO is here.

INTERACTIVE MOBILE SURVEILLANCE. CAN YOUR CAMERAS DO THAT?

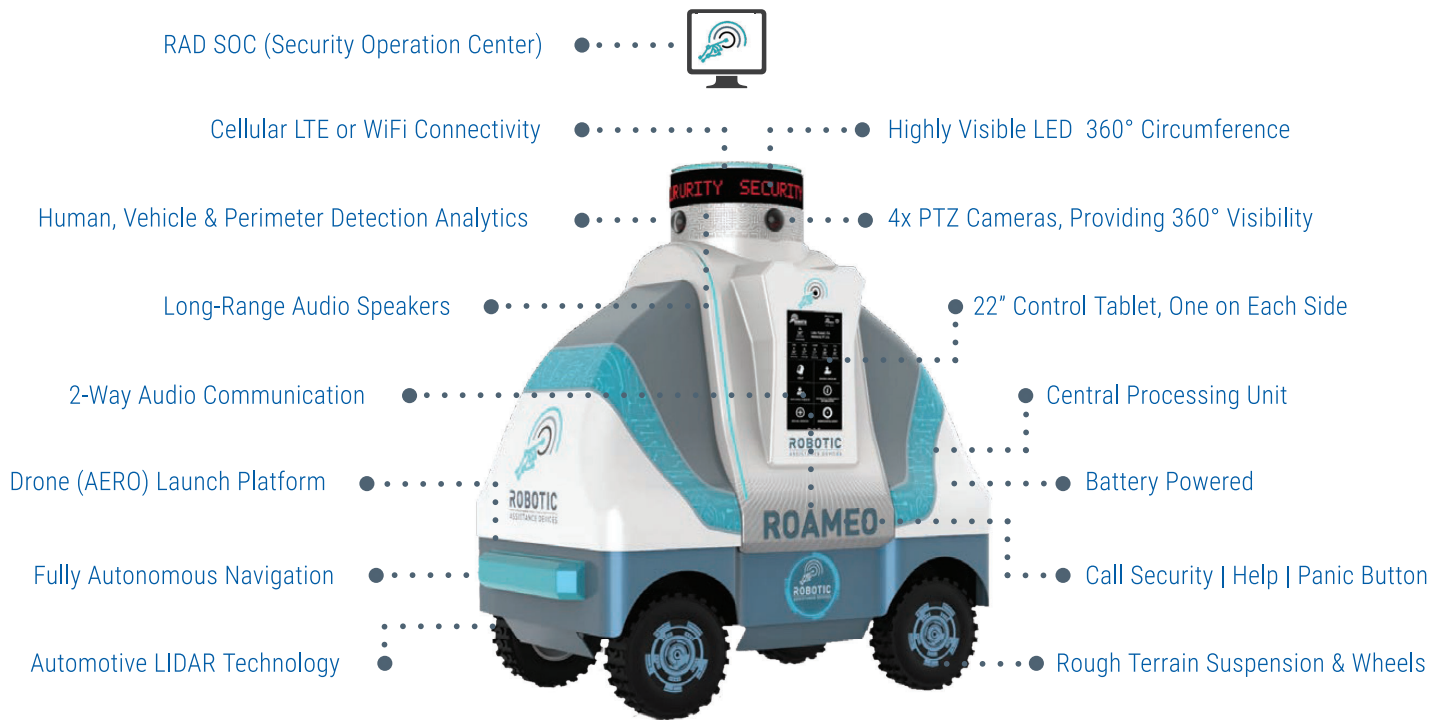

ROAMEO will revolutionize your security with analytics, surveillance, and communications
