

**SCOT2.0** stands over 7' tall and is capable of manning and monitoring 24/7, at a fraction of the cost of personnel. SCOT's 360° field of view through four hi-resolution, full-color, always-on digital cameras place eyes on property and periphery. SCOT can monitor and record human and vehicle activity in any environment.

SuspectSpotter uses AI for accurate detection of persons and can perform actions based on location, time, and day.

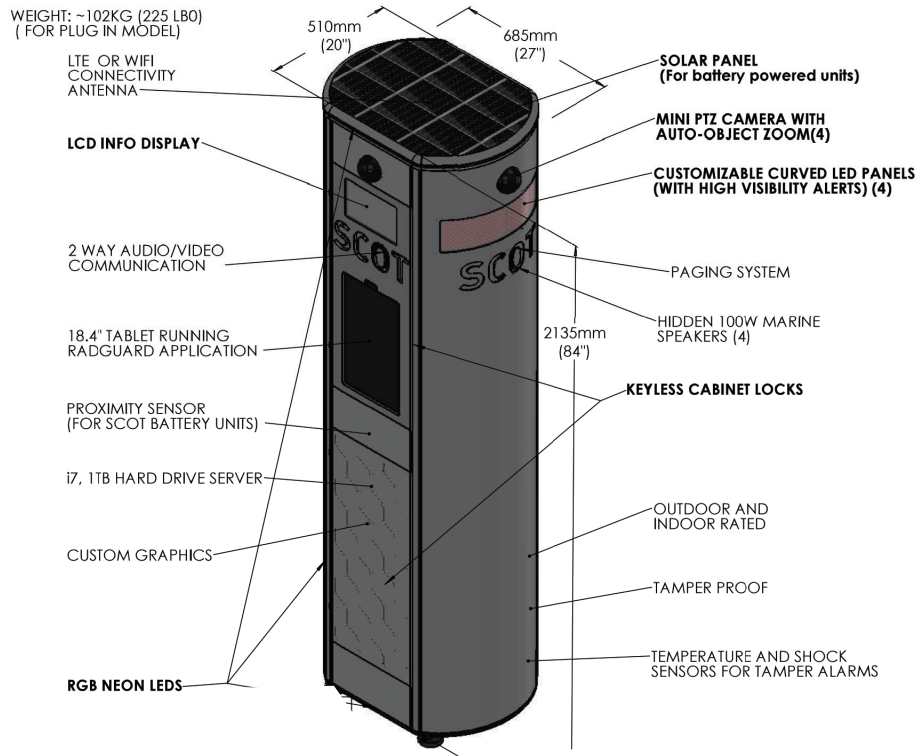

# DO YOU HAVE CONSTANT SECURITY TAILORED TO YOUR NEEDS?

A 360-degree field of vision for your security and peace of mind
