

WALLY is a wall mounted unit that provides an edge-to-edge 180° field of vision. Wally deploys innovative artificial intelligence-based technologies to enhance an organization's situational awareness, communication, and control. Wally includes all of the features of the SCOT tower in a smaller package that's ideal for corporate campuses, parking structures, exterior areas, lobbies and buildings; anywhere that increased visibility is needed at a fraction of the cost

**SMALL PACKAGE,
BIG RESULTS. ARE
YOU GETTING THE
MOST OUT OF
YOUR SECURITY?**

A compact version of our most powerful device
